AURORA Flex

- 12VDC. More energy efficient than traditional glass neon tubing.
- Eco-friendly flexible LED PVC tube with UV stabilizers.
- High & Low temperature resistant (-20°C to +45°C)
- Vivid, uniform Neon-like lighting without dark spots or gaps in the tube.

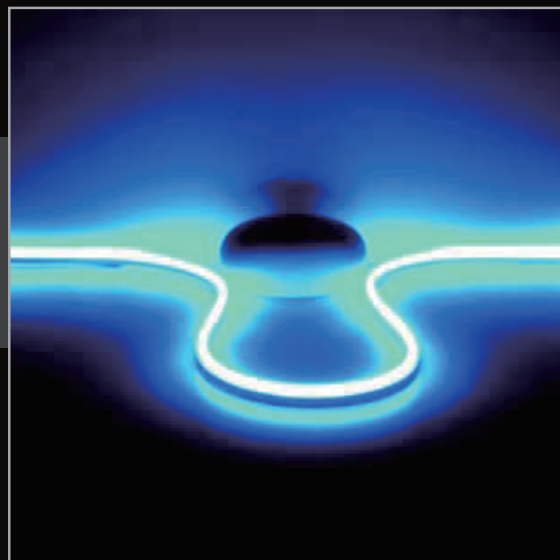

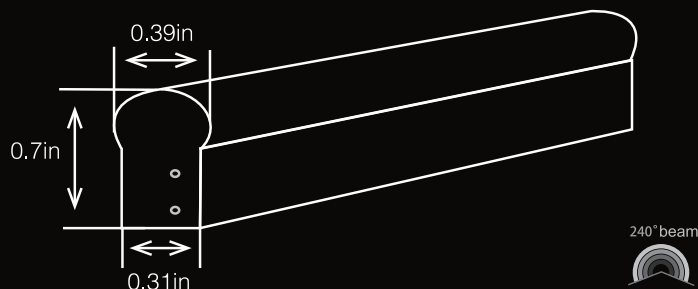

SPECIFICATIONS

Neon	Voltage	Cut Intervals	LED	LEDs Qty	Power	IP Grade	Lengths	Warranty
AuroraFLEX	12VDC	2.8"	SMD 2835	24LED/FT	2.8W/FT	IP65	10FT	3 year

AURORA *Flex* MINI

- For use of exterior or interior border tubing, sign lettering, and accent lighting.
- Made of extremely flexible material, creating incredibly tight corners is easy, with causing the tube to break.
